

GALAPAGOS ISLANDS TOUR

Birds in Focus

A Seabird & Wildlife Photography
Adventure

Discover the Birds of the Galapagos Islands

The Galapagos Islands are among the world's finest destinations for birdwatching and wildlife photography. Thanks to the remarkable tameness of their wildlife, photographers and nature enthusiasts can enjoy extraordinary close encounters with many of the archipelago's most iconic bird species. This carefully selected itinerary visits some of the best islands for observing spectacular seabirds. From the famous colonies of Red-footed Boobies and Great Frigatebirds on Genovesa Island to Blue-footed Boobies, Nazca Boobies and Swallow-tailed Gulls, each day offers exceptional opportunities to experience and photograph the unique birdlife that has made the Galapagos famous around the world.
