

MINDO & AMAZON FOOTHILLS

Leonid Finkelstein
Ecuador 2025

Birding & Photography Tour in Ecuador
9 Days / Private Expedition

Welcome to Paradise

This is not just a tour; it's an immersive journey through some of the most biodiverse cloud forests and high-altitude habitats on Earth. Our expedition takes you from the misty, sun-drenched canopy of the Chocó Cloud Forest in Mindo—home to over 500 avian species—to the dramatic, windsweized paramos of the High Andes where the majestic Andean Condor glides. Finally, we will descend into the vibrant Amazonian foothills, a world-famous hotbed for rare specialties. Every stop is meticulously selected to give passionate birdwatchers and wildlife photographers unrivaled views, pristine light, and clean shots of the world's most spectacular avian wonders.

Plate-billed Mountain Toucan

Long-wattled Umbrellabird

Red-headed Barbet

Collared Aracari
